THE

GREYSTONE

Annual Publication of the Students of the University of Saskatchewan at Saskatoon

ALBERTA GENEALOGICAL SOCIETY

NINETEEN HUNDRED AND FIFTY-FIVE

Foreword

THIS year the people of Saskatchewan celebrate the Fiftieth Anniversary of the formation of the Province. Such an occasion is one for rejoicing. But amid the rejoicing it is very fitting that we re-

member the men and women, the pioneers, who with faith and by hardihood laid the foundation for our present-day society. As Abram Joseph Ryan wrote "a land without memories is a land without history." The memories of this land are not the tortured and stained memories of violent and bloody years but rather they are the memories of hardship faced and overcome, of new and successful experiments in living together, of stern challenges and real achievements. The pioneers dedicated their plans and their toil to the future of their sons and daughters. In celebrating our Golden Jubilee we honour these pioneers; we give thanks for the bounties of the past, and we ask guidance for the future.

The University of Saskatchewan is very much a part of the provincial scene. It is in the broad sense a university of the people. Our university was built on faith and maintained in the belief that knowledge and freedom are essential to the full development of man. We are part of its great traditions. It is your responsibility, as it is mine, to maintain the ideals on which it was founded. As you celebrate the Golden Jubilee of our Province with prayers and with rejoicing, each of you will stir to a special memory. The spirit of these grey stone walls will invoke some responsive chord, dedicating part of your life today to the stirring world of tomorrow.

1. Q. Douglas

Premier of Saskatchewan

The President
W. P. THOMPSON,
M.A., Ph.D. D.Sc., F.R.S.C.

MARION BERJSAGEL

In Memoriam

HUGH CARSON

A Tribute

A well known figure on the campus, Hugh Carson, passed away on the twentieth of September, 1954.

As far back as 1926 he joined the staff of the University of Saskatchewan as Physical Education Instructor, and over the years grew to be almost as much a part of the University as the Greystone colleges.

His activities were many and varied. He coached, trained and instructed in the fields of fencing, boxing, football, soccer and swimming. Furthermore he was an outstanding athlete in his own right, having been a professional player on the famous Scottish first division soccer club, Kilmarnock, in the year 1920. His soccer playing in North American earned him the honor some twelve years ago, of being chosen in a poll conducted by Canadian Sports Writers, as the fourth greatest player in Canada in the previous fifty years.

Until his retirement in 1953 he gave of himself unsintingly. A number of students gained individual fame under his direction. Many more gained benefit from his unselfish devotion to their recreational needs. All of them, many now in far flung places, doubtless have nostalgic memories of their old meeting place, his office, always overflowing with an assortment of athletic gear and good fellows, where presided that shining example of good sportsmanship known affectionately to the faculty and students alike as "Hughie".

The B'nai B'rith Hillel Foundation University of Saskatchewan

THE B'NAIL BRITH HILLEL FOUNDATION

Purposes and Organizations

Hillel bears the name of the belaved gentle sage who lived in the first century B.C. His name is associated with his teachings of love af fellow-man,

devotion to peace and justice, and dedication to learning.

The Hillel Foundation are dedicated to the ideals of Rabbi Hillel and today serve more than 150,000 men and women on 200 college and university campuses from the Canadian North to Havana in the Caribbean to the Hebrew University in Jerusolem.

Every Hillel Foundation operates under the guidance of a director who is usually a Rabbi. The Hillel Foundations function democratically under the guidance of the Hillel director through elected student councils and student committees which are in charge of the various phases of the Hillel program.

Hillel's sevenfold program includes:

- Religion
- 2. Culture

- 4. Interfaith

6. Personal Service 7. Leadership Training 3. Fellowship

Hillel aims to preserve Jewish values for its students, preparing them for effective participation in the life of the Jewish and Canadian community.

The general purpose of the Hillel program is to create a Jewish student community aware of its Jewish background and to prepare it for the assumption of adult Jewish responsibilities.

Hillel is but ten years old on the campus of the University of Saskatchewan olthough the national organization is some thirty years old. The Foundation is spansored by the B'nai Brith Jewish Men's Service Club. The Sask. Foundation is comprised of some 40 members and is thought to be the smallest established Foundation in the Hillel "Family". Despite its camparatively small size, it compares favorably with many of the larger foundations particularly with respect to member participation and broad scape in program.

A few years ago the International Students' Club set out to bring students who came from all parts of the world into an organizational relationship which promoted understanding. At present, over 60 members representing 28 countries, many different civilizations, races and religions have learned by means of personal contact about the problems, ideas and aspirations of other peoples.

Today with modern technological developments, the world has shrunk enormously and the problems of many nations and peoples have become greatly inter-related. The object of the club is to bring all international students and interested Canadians together, and in this way contribute to the great cause of international understanding and co-operation.

The activities of the club in the past year have included an International Tea; a Christmas reception; a very successful International Dinner followed by a program; meetings with talks, lectures, discussions, films and panel discussions; and clase contact with many downtown clubs and organizations for which the club provided speakers an many accessors.

and organizations for which the club provided speakers on many occasions.

The successful year enjoyed by the International Students' Club has helped to foster a firsthand knowledge of the peoples of various countries, their great variety of cultures and the contrasts between their modes of thought. Only in this way is international understanding achieved.

Alpha Omega Society

The Alpha Omega club, a nan-sectarian, non palitical association of Ukrainian students on the campus, is designed to perpetuate the Ukrainian cultural heritage by means of various activities. The activities of the club in the past year have included an exhibition of Ukrainian art, books, and paintings; an apening dance, a sleigh-riding party, a bowling party, and a tea; and lectures by guest speakers.

Today, Canada's culture is a bright mosaic campased of many ethnic groups, each one contributing its share. By retaining the Ukrainian cultural heritage, the Alpha Omega club attempts to do its part to make the Canadian Culture an even richer one. In speaking to the club, Professor G. W. Simpson, head of the Histary Department and hanarary president of the club, once said, "A group feeds on its traditions as an individual feeds on his memories. A man without o memory cannot act intelligently . . . an intelligent group feeds on its post."

Head Office: REGINA

The publishers of this book are pleased to announce that at great trouble and expense, they have been able to obtain a poem from the pen of Alistair Jakeman. The Adventures of Joe Caterpillar begin later in this section.

Thank you,
AL JAKEMAN

SASKATOON BUSINESS COLLEGE

KEMPTHORNE BLOCK—2nd AVENUE

For University Grads:

A complete secretarial course in four months!

Includes speedwriting sharthand the ABC system which can be mastered in six weeks.

F. H. CHAPMAN, B.A. Principal.

Affiliated with the:-

- -BUSINESS EDUCATORS ASSOC. of CANADA
- -DALE CARNEGIE INSTITUTE.

UNIVERSITY OF SASKATCHEWAN

- ▶ **DEGREE COURSES** are offered in Arts (General and Honors), Agriculture, Commerce, Engineering (Civil, Agricultural, Mechanical, Chemical, Geological, Petroleum Engineering Physics, and Electrical), Education, Home Economics, Law, Medicine, Pharmacy, Nursing and the Graduate School.
- CERTIFICATE COURSES are given leading to the diplomas of "Associate in Arts," "Associate in Agriculture," "Associate in Education," "Certificate in Education," "Public and Business Administration," "Accounting," Secretorial Course," "Clinical Laboratory Technique," "Music Certificates." One year Graduate Nurse Diploma Course, three year diploma course in nursing for high school graduates.
- ▶ JUNIOR COLLEGE courses ore given at Regina College, Campion College, Luther College and St. Peter's College at Muenster.
- ▶ THE SUMMER SCHOOL at the University offers special courses for 'teachers and degree courses. Courses in Art are given at Emma Lake.
- ▶ PROFESSIONAL EXAMINATIONS for which the University is responsible are given os required in Accounting, in Architecture, in Pharmacy, in Veterinary Science, in Dentistry, in Medicine and Surgery, in Law, in Land Surveying, in Optometry, in Engineering, in Agrology, in Music, in Physical Therapy, in Embalming, and in Psychiatric Nursing.
- ▶ ENTRANCE SCHOLARSHIPS. The University offers four entrance scholarships of the value of \$250 each. Written examinations for the Grade XII diploma will be the basis on which these scholarships will be awarded. Application forms must be completed and returned not later than July 5.
- ▶ UNIVERSITY UNDERGRADUATE SCHOLARSHIPS. The University offers 24 scholarships which are based on the scholastic achievements of students. They are awarded at the close of each session and are tenable only for the following winter session.
- ▶ HONOR BURSARIES of \$265 paid in seven monthly instalments are offered in the fourth year of several courses, one for each department offering a special course.
- Other Scholarships are available and details are outlined in the Scholarship Bulletin.

SERVE

YOU

Here's the hotel you should make your social headquarters . . . whether you're planning class, sorority, fraternity functions, or private parties.

The Bessborough is ideally located . . . and in its comfortable surroundings you can enjoy every catering facility, plus the advantages of the cafeteria, well known for good food at moderate prices.

A favorite event at The Bessborough is Saturday Night Supper Dancing during the winter. Make up a party and come often.

C. FINLAY, Manager

... the stuff dreams are made of ...

Steel without form is a commodity without purpose... like paint without the artist to give it expression.

And the form of steel, too, starts with the mind. It takes shape sometimes on a flash of intuition, a mere wisp of an idea, a thought; but most frequently perhaps, on hard thinking knowingly applied.

It is a man's business, but not necessarily for all men.
Fitting steel for its mighty part in industry and
building takes imagination, foresight, vision.
But for men that possess these qualities there is a singular
reward awaiting . . . the peculiar, lasting satisfaction that
comes from seeing dreams come true . . . in steel.

Opportunities exist in the steel industry for young engineers, draughtsmen and designers. Making contact with any of the companies listed below will bring you full particulars.

ALWAYS LOOK TO IMPERIAL FOR THE BEST

BALANCE ... in Curling as in Gasoline means
BETTER PERFORMANCE!

Every curler knows that perfect balance is the keynote in making a good shot. The proper back swing, the correct delivery, the right weight distribution, even the length of slide in your follow through is important if your stone is going to draw to the button every time. And in Imperial Esso and Esso Extra Gasolines, you'll find a perfectly balanced combination of instant starting, smooth flowing power and lively acceleration . . . a perfect balance that always means better performance.

IMPERIAL OIL LIMITED

Extends best wishes to the faculty and agricultural graduates of 1955.

A CHALLENGE TO YOUTH

The romance of the Canadian prairies is irrevocably associated with the vision, the courage, and the ingenuity of its freedom-loving pioneers.

Theirs was the pride of ownership—the pride of achievement—the pride of free action in carving out a future for their children and their children's children for generations to come.

The pride of ownership still remains but the pride of free choice and free action has almost disappeared in the maze of governmental controls.

THE ROMANCE of the West's oil and mineral discoveries and the growth of industry have lured many young people from prairie farms — attracted by a freedom that seemed to have been lost at home. This migration from the land should not continue.

Herein lies a challenge for leadership to the agricultural students now graduating from our great universities. In their application of scientific knowledge may they recapture for this great industry the basic freedom of choice and of action that served as an inspiration to the pioneers and early farm leaders.

Ten Cantos numerically diffored that yow will eech yfynde; in what array that they are inne and thence to what defign.

Canto Dirste

Prefenting Joe

Up in the morning at 6:45 He could be happy if he could survive, In a paradise built for his personal pleasure, An anarchist worm in a world without measure.

The first indication of dissatisfaction Emerged as a psycho-neurotic reaction, He first had a feeling a little inferior Then suffered a pain in his dainty posterior.

Now if you have the symptoms you'd better act quick.

As you're not very sane if you're mentally sick, Good beginning, good end, but good heavens

This poor little fellow had fallen in love.

Canadian physicians have confidently prescribed "Tross!" medical specialties . . . secure in the knowledge that these preparations have established their worth in exhaustive experimental and clinical trials.

Canto Thre

Whereby Joe effays the onflaught of a fair damfel and is fourned.

With spiricals heaving and eyes filled with tears, Little Joe would cajole her with nice souvenirs. But Beatrice said that if he couldn't sing He wouldn't be useful for any darn thing.

With some caterpillars, love's hasty and quick, With others, it makes them romantic and sick, But this little fellow wasn't any of these, He had fallen in love with a hairy deep freeze.

Now Joe was completely in love with his friend And when love refused, contemplated life's end, For days he communed with a hungry horned toad And threatened to be robin pie a la mode.

ENGINEERING unlimited...

In engineering, the sky's the limit today at Canadian Westinghouse. The never-ending demand for more advanced electrical and electronic devices for the homes, industries and defence services of Canada, coupled with a steadily broadening engineering horizon, gives virtually unlimited scope for the talents of the Westinghouse corps of engineers.

If you are an undergraduate in electrical, mechanical or electronic engineering—if you would like to build a stimulating and rewarding career, working with leaders in your profession in one of the largest and fastest-growing engineering organizations in Canada... get in touch with Westinghouse, where constant progress is always making new opportunities for engineers.

Canto Ufours

Whereby Joe fcrams.

After threats and persuasion had been at a loss, To show that Beatrice wasn't the boss, With a soulful last nod from the tip, of his tail, Little Joe started out on a perilous trail.

Now walking is not a preferred locomotion And hitchiking seemed a superior notion, He met an old turtle who planned to vamoose And latched himself on to a part not in use.

After numerous yards were traversed in this fashion

And labour had used up a lot of his passion, He hungrily climbed off his elegant carriage Relinquishing all thoughts of love and of marriage.

HOW THAILAND RICE MAKES DOLLARS FOR CANADIANS

Those big red Canadian-made Self-Propelled Combines that bring in the rice harvests of Thailand, Burma, India, Brazil and other far-off places not only help carry the name of Canada and Massey-Harris to over one hundred countries of the world—but bring back dollars to help keep Canadians prosperous. Because of the additional production in its Canadian factories, resulting from sales in these remote

lands, Massey-Harris-Ferguson in 1953 spent in Canada for wages, goods and services \$42,000,000 more than it received for its total sales in Canada of Canadian-made goods.

Thus has Massey-Harris-Ferguson created a greater market for the products of Canadian mines, forests and factories. This means more Canadian payroll dollars—to enable all Canadians to enjoy a high standard of living.

MASSEY • HARRIS • FERGUSON LIMITED

Wherever big things are going on there you'll find the engineer

Wherever you go in Canada today, you see the work of the professional engineer. A river's course is changed and its rushing power harnessed for man's needs... an oil pipeline scales a mighty mountain range... a highway is punched through the rocky wilderness... and behind each mighty accomplishment stands the engineer.

Behind our many new industries, unknown a decade ago, as well as the unprecedented development of our natural resources—stands the engineer. His is the vision and the orderly thinking that is contributing so much to Canada's phenomenal expansion.

we of Canadian General Electric never forget that ours is essentially an engineering organization. We know that our progress depends on the constant recruitment of young engineers and are proud of the contribution we are making to their training.

Engineering graduates join this Company each year

Each year, since its earliest days, engineering graduates have joined this Company to continue their training in special courses—nearly twelve hundred have already gained invaluable experience on the Company's well-known "Test" Course.

The purpose of the course is primarily to ensure a constant supply of trained talent for this Company. A high proportion of the executives of this organization got their start on the "Test" Course.

The course over the years has also contributed a constant stream of highly-trained graduates to fill the ranks of Canadian industry. In fact, it is a source of pride that not a few of them are to be found today holding important positions in many widely diversified engineering fields.

Everybody benefits from the engineers' work

Canadian General Electric currently employs some eight hundred engineers

—that's one out of every eighteen employees—and is continually adding to their number. These men—whether they work as development, design, production, application, sales or service engineers, in the electrical, mechanical or chemical fields—are in the final analysis working for you.

They develop, design and manufacture the complex electrical equipment that generates power, transmits it across great distances, controls it and then puts it to work for the common good. They are constantly improving and simplifying existing products to increase their efficiency and lower their cost. They develop brand-new products to meet brand-new needs. In cooperation with our customers' engineers they design and install equipment to meet specialized needs—to raise productivity and to lower costs.

The engineers' part in Canada's rising prosperity

It is an important part of their work to find new methods of manufacture, and to develop new equipment and products that do more, last longer, cost less to operate. It

> —the key men in Canada's progress that we are able to play a worthy part in our country's industrial growth, and in the developments that are raising our living standards.

is by employing outstanding engineers

CANADIAN GENERAL ELECTRIC COMPANY

Canada's Oldest and Largest Electrical Manufacturer

the trickle that became a river!

The year was 1876. The shipment was wheat — Western Conado's first — and it tallied 857 bushels, 5 pounds.

The twelve formers who made that shipment made history too, and from that day forward Western Conoda took its place as a leading grain-producing area of the world.

To keep poce with this development, grain handling facilities have changed too.

Year after year, since 1893, National Grain has provided Western Canodian farmers with the most up-to-date facilities for marketing their grain.

The Romance of Ioe Caterpillar

Canto Tyve

Wherein an Honourable and Learned band of Adventurers is yformed.

Now a rebel's ambition is really quite hot And soon quite a kingdom our little friend got; A king over rogues bent on full devastation, They carelessly roamed the whole of creation.

Freeborn adventurers, steadfast and true,
There was something of awe in the terrible crew.
A bogey to children, feared by the bold
All Nature turned pale when their story was told.

Our heroes led full lives, got fleshy and fat And had lots of adventures for life is like that. But Joe slowly tired of the glory and all And evinced many signs of a change of life call.

The Romance of Ine Caterpillar

Canto Deven

Wherein inevitable mifchief befelle the Lady Beatrice to her great undoying.

Disregarding the protests of all of his crew To the home of his bughood, the little moth flew, In search of Beatrice, beautiful maid, To offer his version of love's serenade.

Beatrice had not led a static existence, But had followed a cycle with thorough persistance,

No longer attractive from mere nose appeal, She had also got fat and was starting to peel.

Joe found her lying beside an old stump With eight pretty legs and a beautiful rump A wing half unfolded and half wakened up, She gracefully rose and began to hiccup.

GROWING WITH SASKATCHEWAN . . .

The year 1955 is Saskotchewan's Golden Jubilee Year. During the present year we will be celebrating the incorporation of the Province, which occurred fifty years ago. Jubilee celebrations provide the apportunity to add up the occomplishments of the past and turn to the future with renewed faith in our social and economic gools.

Co-operatives are an integral part of the Saskatchewan scene. Many of our problems of growth have been met and overcome. Problems will arise in the future, but co-operative development has been and will continue to be a feature of the Saskatchewan scene. Co-operators are proud to play a part in Saskatchewan's development story.

Consumer Co-operatives have achieved a sales valume of \$450,000,000 since the organization of the wholesale in 1929. Earnings realized on this valume exceed \$25,000,000, with roughly half of this amount paid out in cosh to individual consumers. Buying co-operatively means more cosh and extra purchasing power in your community. We are proud to be growing with Soskatchewan.
